Tempel Grotesk is another concoction from the LAB: a blocky black sans in four widths. All that ink creates a fantastically heavy page with rich texture popping through the counterforms—even better when you mix widths in the same design. Individual characters are also worth highlighting as graphic devices all their own—start with the authoritative cap G and the lowercase r—it feels wonderfully machined.

The Memphis Group, also known as Memphis Milano, was an Italian design and architecture group founded by Ettore Sottsass. It was active from 1980 to 1987. The group designed post modern furniture, lighting, fabrics, carpets, ceramics, glass and metal objects. The Memphis group’s work often incorporated plastic laminate and terrazzo materials and was characterized by ephemeral design featuring colorful and abstract decoration as well as asymmetrical shapes, sometimes arbitrarily alluding to exotic or earlier styles and designs.
